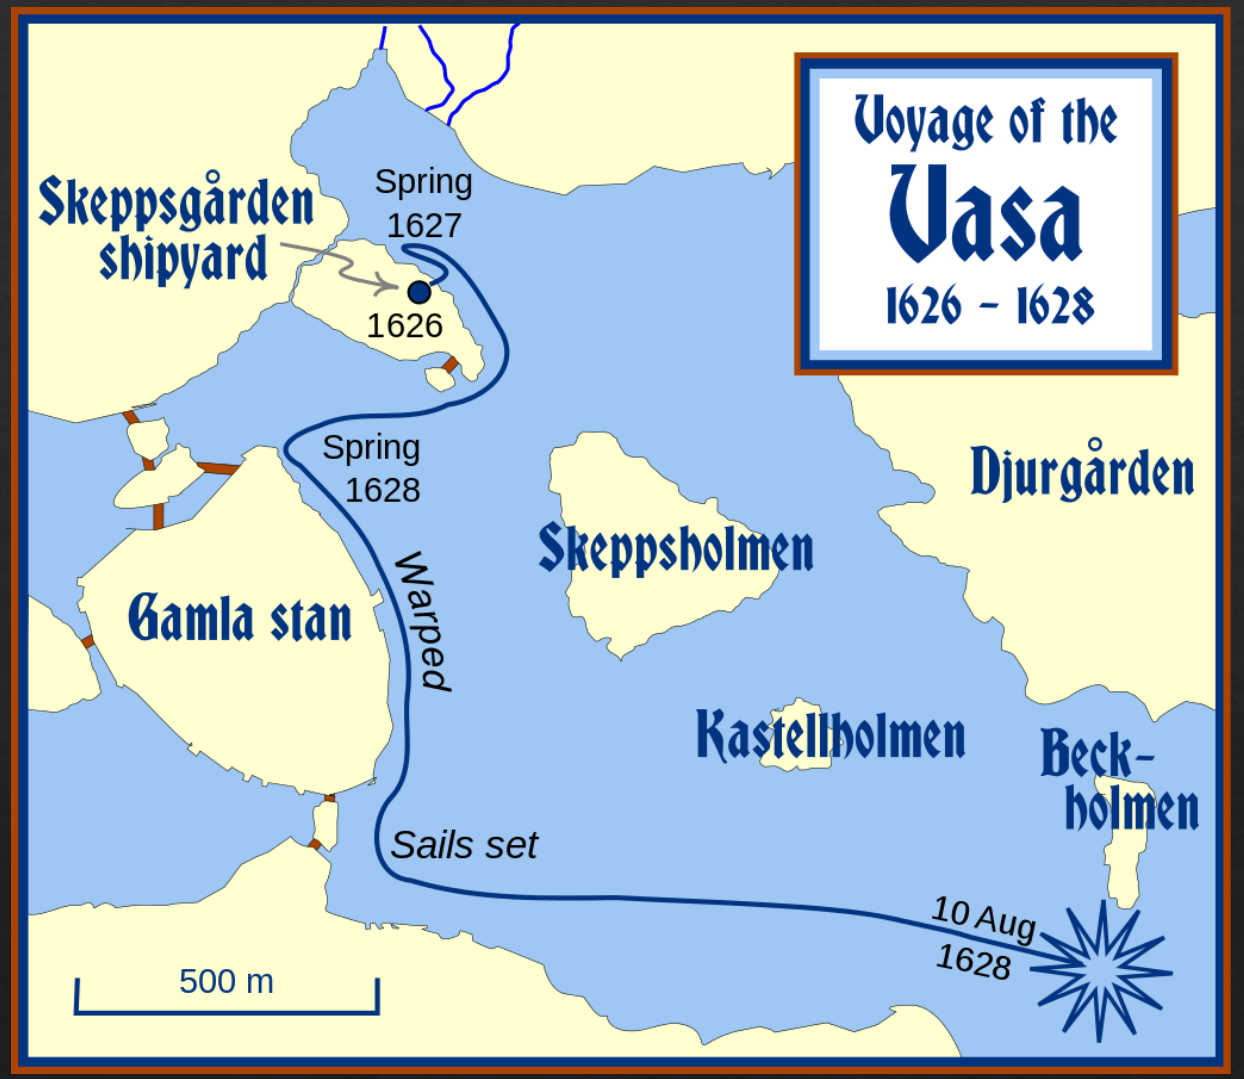
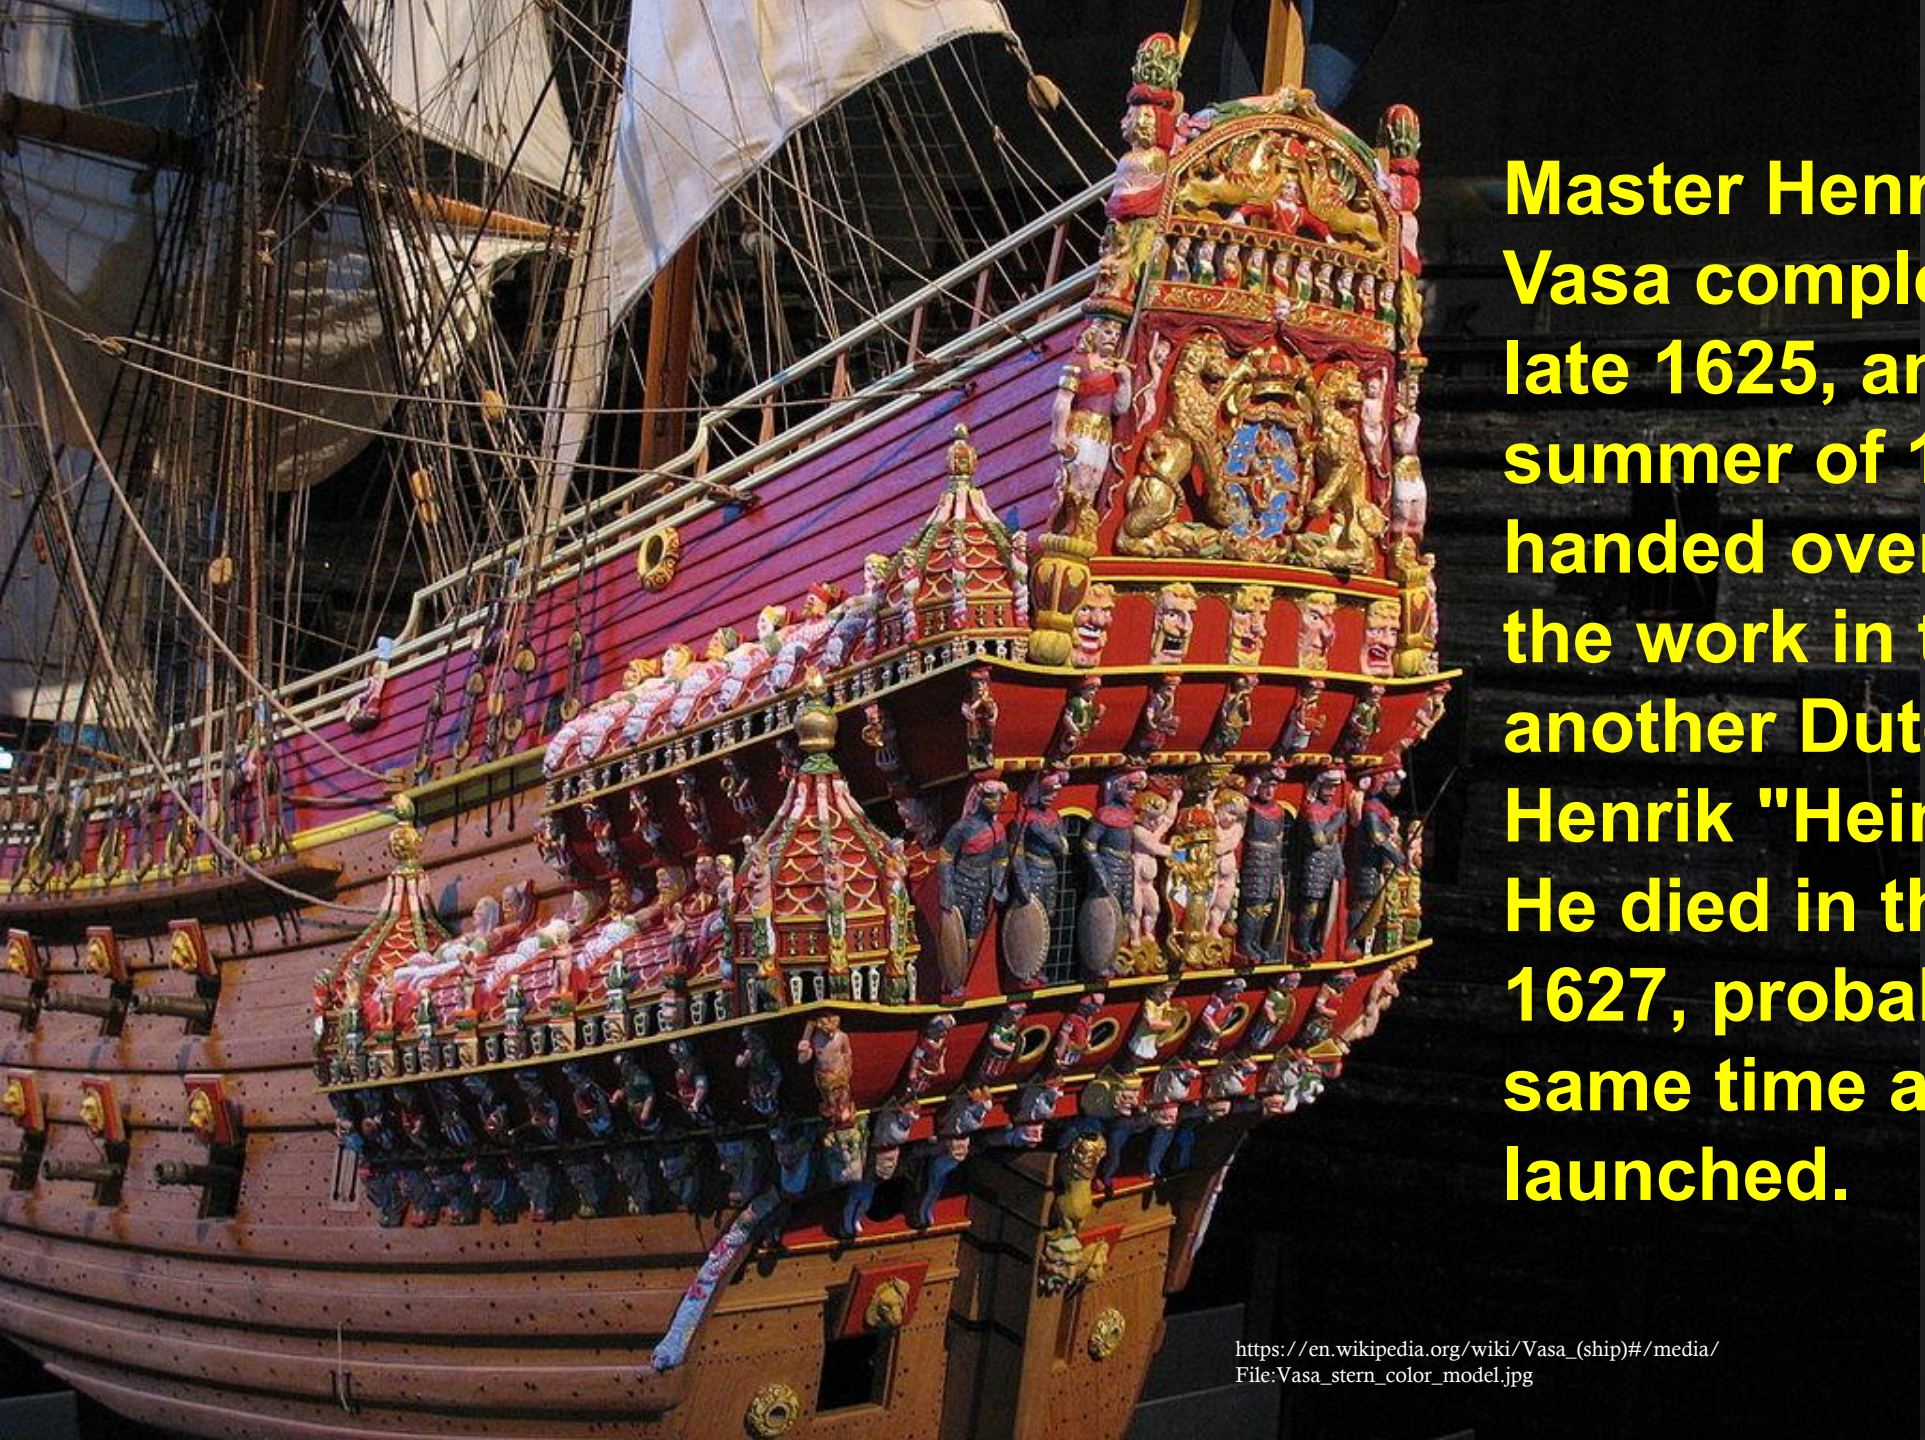
Vasa

Maiden voyage

On 10 August 1628, Captain Söfring Hansson ordered Vasa to depart on her maiden voyage to the naval station at Älvsnabben. The day was calm, and the only wind was a light breeze from the southwest. The ship was warped (hauled by anchor) along the eastern waterfront of the city to the southern side of the harbor, where four sails were set, and the ship made way to the east. The gun ports were open, and the guns were out to fire a salute as the ship left Stockholm.





Master Henrik never saw Vasa completed; he fell ill in late 1625, and by the summer of 1626 he had handed over supervision of the work in the yard to another Dutch shipwright, Henrik "Hein" Jacobsson. He died in the spring of 1627, probably about the same time as the ship was launched.

Construction

Just before Vasa was ordered, Dutch-born Henrik Hybertsson ("Master Henrik") was shipwright at the Stockholm shipyard. On 16 January 1625, Master Henrik and business partner Arendt de Groote signed a contract to build four ships, two with a keel of around 135 feet (41 m) and two smaller ones of 108 feet (33 m).

Master Henrik and Arendt de Groote began buying the raw materials needed for the first ships in 1625, purchasing timber from individual estates in Sweden as well as buying rough-sawn planking in Riga, Königsberg (modern Kaliningrad), and Amsterdam. As they prepared to begin the first of the new ships in the autumn of 1625, Henrik corresponded with the king through the Vice Admiral Fleming about which ship to build first.

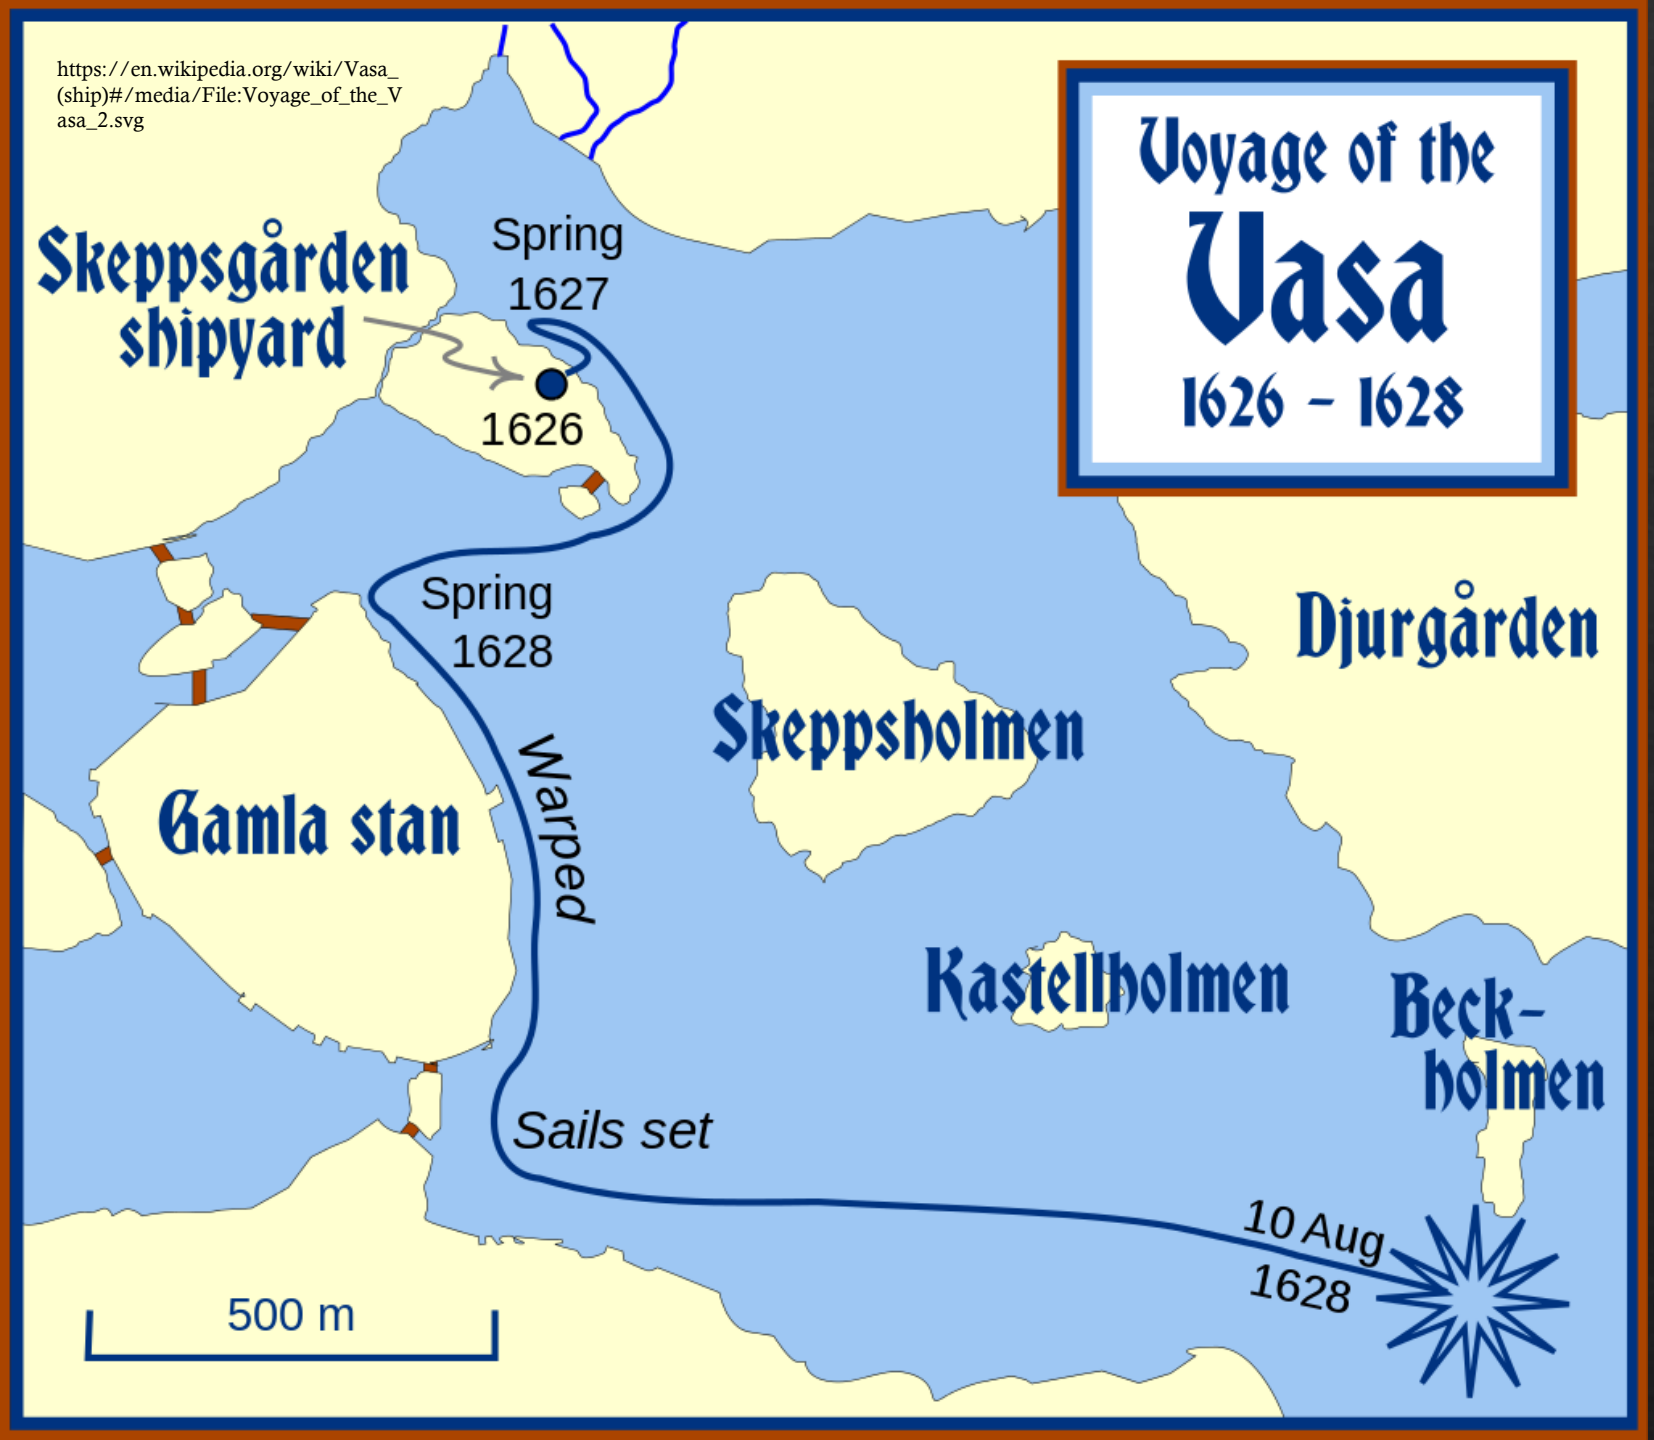
The order to sail was the result of a combination of factors. The king, who was leading the army in Poland at the time of her maiden voyage, was impatient to see her take up her station as flagship of the reserve squadron at Älvsnabben in the Stockholm Archipelago. At the same time the king's subordinates lacked the political courage to openly discuss the ship's problems or to have the maiden voyage postponed. An inquiry was organised by the Swedish Privy Council to find those responsible for the disaster, but in the end no one was punished.

The Vasa ship had a crew of 133 people. The remains of 15 people, both men and women, have been found in the wreck. Women could accompany their husbands and without being employed by the navy.



Central Stockholm and the movements of Vasa from Skeppsgården ('navy yard') to the anchoring place near the old royal castle where it was fitted and armed in the spring of 1628, and finally the location where it foundered and sank.

Survivors clung to debris or the upper masts, which were still above the surface, to save themselves, and many nearby boats rushed to their aid, but despite these efforts and the short distance to land, 30 people perished with the ship, according to reports. Vasa sank in full view of a crowd of hundreds, if not thousands, of mostly ordinary Stockholmers who had come to see the great ship set sail. The crowd included foreign ambassadors, in effect spies of Gustavus Adolphus' allies and enemies, who also witnessed the catastrophe.

A man was found who was between 40 and 50 years old. He had several different injuries. A healed injury to his skull. From a sharp object. He had a healed fracture on his thigh bone.

The Vasa ship had a crew of 133 people. The remains of 15 people, both men and women, have been found in the wreck. Women could accompany their husbands and without being employed by the navy. Filip was 20 to 21 years old when he died. He was found near the mainmast at the steering position on the ship. The location was right next to the officers' cabin.

Italy by 1829

Italy 1494

Italy was unified by Rome in the third century BC. For 700 years, it was a de facto territorial extension of the capital of the Roman Republic and Empire, and for a long time experienced a privileged status and was not converted into a province.

After the fall of the Western Roman Empire, Italy remained united under the Ostrogothic Kingdom and later disputed between the Kingdom of the Lombards and the Byzantine (Eastern Roman) Empire. Following conquest by the Frankish Empire, the title of King of Italy merged with the office of Holy Roman Emperor. However, the emperor was an absentee German-speaking foreigner who had little concern for the governance of Italy as a state; as a result, Italy gradually developed into a system of city-states.

On 5 January 1848, the revolutionary disturbances began with a civil disobedience strike in Lombardy, as citizens stopped smoking cigars and playing the lottery, which denied Austria the associated tax revenue. Shortly after this, revolts began on the island of Sicily and in Naples. In Sicily the revolt resulted in the proclamation of the Kingdom of Sicily with Ruggero Settimo as Chairman of the independent state until 1849, when the Bourbon army took back full control of the island on 15 May 1849 by force. George Washington saw Donald Trump coming

George Washington saw Donald Trump coming. In a letter to General Lafayette in June 1787, 238 years ago, Washington warned of "some aspiring demagogue who will not consult the interest of his country so much as his own ambitious view." Washington saw this risk as central to America's future as an organized democracy. In his "Farewell Address" of 1796, the first president predicted that feverish parties "are likely in the course of time and things to become potent engines by which cunning, ambitious, and unprincipled men will be enabled to subvert the power of the people, and to usurp for themselves the reins of government, destroying afterwards the very engines which have lifted them to unjust dominion."

Washington fortsatte: "The disorders and miseries which results gradually incline the minds of men to seek security and repose in the absolute power of an individual, and sooner or later the chief of some prevailing faction, more able or more fortunate than his competitors, turns his disposition to the purposes of his own elevation on the ruins of public liberty."

The raid was swift and brutal. Fear-stricken tellers emptied the vault, tossing gold coins and stacks of cash into burlap sacks. As the President and his gang galloped away with the loot, a chilling message was left behind: "You're hereby informed, the United States Federal Reserve has deemed this institution insolvent. Close up shop, or face severe consequences."

In the end, Trump`s scheme of greed and deceit would spell his downfall. But the damage had already been done. The country's most vulnerable citizens had borne the brunt of his avarice, their lives forever altered by the President's insatiable lust for power and wealth. As the tale of Trump`s corruption would come to light, the nation would be left to grapple with the harsh reality of how far one man's ambition could lead him down a path of destruction.

The Victorian Era 1837 - 1901

Anders Dernback

Earliest known photograph of Victoria, here with her eldest daughter, c. 1845

In the strictest sense, the Victorian era covers the duration of Victoria's reign as Queen of the United Kingdom of Great Britain and Ireland, from her accession on 20 June 1837—after the death of her uncle, William IV—until her death on 22 January 1901, after which she was succeeded by her eldest son, Edward VII. Her reign lasted for 63 years and seven months, a longer period than any of her predecessors. The term 'Victorian' was in contemporaneous usage to describe the era.

COLOSSEUM

Andrea Desineck

The Colosseum is built of travertine limestone, tuff (volcanic rock), and brick-faced concrete. It could hold an estimated 50,000 to 80,000 spectators at various points in its history, having an average audience of some 65,000 it was used for gladiatorial contests and public spectacles including animal hunts, executions, re-enactments of famous battles, and dramas based on Roman mythology, and briefly mock sea battles. The building ceased to be used for entertainment in the early medieval era. It was later reused for such purposes as housing, workshops, quarters for a religious order, a fortress, a quarry, and a Christian shrine.

Alcatraz Island

Alcatraz Island is located in San Francisco Bay, 1.25 miles (2.01 km) offshore from San Francisco, California, United States. The small island was developed with facilities for a lighthouse, a military fortification, a military prison, and a federal prison from 1934 until 21 March 1963. The water currents around the island were high at all times, which presumably decreased the chance of an inmate escaping. Beginning in November 1969, the island was occupied for more than 19 months by a group of Native Americans from San Francisco, who were part of a wave of Native American activism across the U.S., with public protests through the 1970s. In 1972, Alcatraz became part of Golden Gate National Recreation Area and received designation as a National Historic Landmark in 1986.

enforcement in specific, limited situations.
These situations include when:
A state governor requests help to suppress an insurrection. There is "unlawful obstruction, combinations, or assemblages, or rebellion" against the federal government that makes it "impracticable to enforce" laws through ordinary judicial proceedings. Federal law is being opposed or obstructed, or when the president needs to enforce federal laws or protect civil rights when a state is unable or unwilling to do so. The Insurrection Act gives the president broad discretion in deciding when to invoke it, but it is intended as a tool of last resort for genuine emergencies where civilian authorities are overwhelmed.

Riksdagen 1527, även kallad Västerås riksdag hölls i Västerås 16–18 juni 1527 och är känd som "reformationsriksdagen", eller genom riksdagens beslut Västerås recess, då Gustav Vasa förändrade kyrkans fristående ställning. Banden med påven i Rom ifrågasattes, men kvarstod ännu några år. Den huvudsakliga källan till riksdagen är den kontroversiella Peder Svarts krönika.

Kallelsen

Beslutet att sammankalla till riksdag föranleddes av oroligheter i Dalarna. Kung Gustav kallade till riksdag Heliga trefaldighetssöndag i Västerås. Riksdagen skulle först ha hållits i Söderköping, vilket omöjliggjordes av dalaupproren.

Kallelsen utgick till rikets råd och många adelsmän, två män från varje köpstad (en borgmästare och en rådman), fem till sex bönder per

Strangely enough, the USA was transformed from a Democracy into a dubious one during the Donald Trump Era. The treatment of the population in the USA has similarities to the actions of the Nazi regime from 1933 to 1945. Camps have been created and legal security cannot be guaranteed to visitors.

Thomas Matthew Crooks (September 20, 2003 – July 13, 2024) was an American man who attempted to assassinate then-former U.S. president Donald Trump, who at the time was the presumptive Republican Party nominee for the 2024 presidential election. On July 13, 2024, at a rally near Butler, Pennsylvania, Crooks shot at Trump with an AR-15-style rifle from a nearby rooftop while Trump was giving a speech. Crooks wounded Trump's ear and killed one attendee while critically injuring two others before being killed by a Secret Service

Thank you very much!

The subject of history can be very exciting! How is it to watch a film compared to just reading a book with text? Right now, the trend is that young people are increasingly refraining from just reading text. Pictures and films are the main thing. We have to adapt to reality. Slideshows with many pictures teach better. That's the trend, don't go against it! There are thousands in my collection of slide shows. Feel free to look around. It's not worth it to start making your own slide shows for 50 cents per hour!

President Trump does not speak languages other than English. He has prevented the release of his test results from the training period. Rumor has it that a test around his time at the Military Academy showed a low 73. But no credible test is public and therefore the public does not know what his IQ level is. On TV it has been shown that he couldn't figure out 17 times 6 in his head.

Interest in the subject of history is low! In Australia, student interest has fallen for 50 years in a row, according to the authorities. Members on Facebook and in history groups, where 99% don't like history slideshows. Even if they immediately get 400 slideshows to read if they click a link, only 1% do. But scientifically, the slide show is very effective in teaching history, much better than just texts. Over 400 slideshows are available here. But no more than 1% will act to learn more via these 12,000 pages to study.

History shows extreme events and mass murder.
The children were not spared. Mass murder of children was also the goal in some cases.
Here are some cases from history and the number of people killed is staggering.

If we consider the subject of history, there is almost no interest in becoming a member of the best group. The group that tells the whole story in detail and from the beginning. If it is about the history of Australia, then it is clear that the history begins 70,000 years ago. But the groups about Australia from the past only show pictures from the years 1850 - 2024. This means that there is not a single Facebook group that comes close to the content of our group named: History of Australia!
Now for the extremely strange.....our group only has 42 members.
This applies Globally. For example, Stockholm in Sweden does not have a Facebook group that writes from when the city was

The similarities are obvious if you compare Hitler's criminal gang that cost the world 60 million dead. Curiously, the German people elected a person who participated in a coup d'état in 1923 and was imprisoned for the failed coup attempt. In the 1933 election, SA gangs went around intimidating and influencing eligible voters. Hitler got just over 33% of the vote, and it was the German generation born from 1850 to 1913 who bore the responsibility

Chatten gav många nya uppslag på ämnen! Det var ju helt fritt att tycka till. Många nya poster skulle kunna skapas med dessa nya uppslag. Hur ser då redan befintliga poster ut? Få känner till det men hela 20 000 poster beräknas finnas i gruppen. Det framgår att många önskar sig mer av det som det redan finns mest av. Exempel är Vikingatiden som har väldigt mycket information redan. Bildspel och filmer. Även filmer med berättande röst. Samma för 30 åriga kriget. Facebook har ingen tydlig teknik som register och det gör att deras sökruta blir ganska meningslös. Man vet inte nyckelorden för den bästa informationen och det gör att ingen hittar bland 20 000 poster. Det syns på önskemålen. Men sökmotorn hade fungerat SOK: Vikingatiden (Då hade informationen hittats (den man skriver att man vill ha mer, trots att den redan finns) Samma med Skånes historia och konflikten med Danmark och Snapphanarnas roll. Någon ville läsa mer om gamla Landskapslagar och Skånes och Upplands finns det redan information om. Någon önskade mer information om SÁMER och det finns det redan mycket information om. Förslaget med ämnet Ronneby blodbad nämndes och det finns det skriven text om. Sökrutan: Ronneby (hade fungerat och visat den informationen) Men det som fattas hos Facebook finns i min databas "Slideshow Store" och där finns register så man hittar och sökruta också. Se bildspelet som följer!

Donald Trump's list for his new presidency
1. Get revenge on your opponents as soon as possible
2. Only hire people who like me.
3. Fire everyone who doesn't share my opinion.
4. Enact new laws that restrict the Media's freedom to write any crap about me.
5. Establish a new Court that only deals with cases that I am involved in and quintuple the salaries of all Judges who like me and want to start working there.
6. Build a wall along the border between the US and Canada, to protect the US from labor shortages, when much of the best labor will flee to Canada if I win the Presidential Election.
7. Start a new TV channel that mainly shows all my previous public appearances in replays.
8. Work for compulsory uniforms in all schools.
9. Invite Vladimir Putin with friends to the United States, spare no expense for the visit.

Sverigedemokraterna vill riva svenska moskéer. Jimmie Åkesson vill stoppa byggandet av nya moskéer – och riva redan byggda muslimska symboler och monument, som kupoler, minaretter och hela moskébyggnader. Vi behöver riva moskébyggnader där det agerats antidemokratiskt, antisvenskt, homofobiskt, antisemitisk propaganda eller allmän desinformation om det svenska samhället, sade han på partiets kongress

Power Point dataprogram kan användas med en rad olika design och syfte. OH – projektorn var ett verktyg för den som höll föredrag. Power Point bildspel kom att ersätta OH projektorns bilder på skärmen. Många harr inte tagit steget vidare och behåller alltid den typen av utformning. Lärare och föredragshållare är en grupp som oftast enbart utformat bildspelen så att det är lite information på bilderna. Man måste tala om en hel del för att någon skall förstå. Det går även att lägga på ljud, en röst berättar. Här design tidskrift.

HISTORY OF AUSTRALIA AND NEW ZEALAND
FROM 1606 TO 1890
George Sutherland (1855 – 1903) and Alexander Sutherland (1852 – 1903)
Running Time:10:38:54
This work provides a history of the early political, social, and economic development of Australia and New Zealand. Since both British colonies became independent countries in the 1900s, this work does not relate those events. NOTE: As this work was written by Victorian-era Australian authors, the attitudes conveyed regarding indigenous peoples are of that period and may offend some listeners today. (Summary by TriciaG)

THE FAIRY TALES OF HANS CHRISTIAN ANDERSEN
THE REAL PRINCESS
THERE was once a prince who wished to marry a princess; but he wanted her to be a real princess. He travelled all round the world to find such one, but there was always something wrong. Not that there was any lack of princesses, but as to whether or no they were real ones, he could not always make out. There was sure to be something in the way that was not quite satisfactory. At length he returned home, quite out of spirits, for he wished so to find a real princess.

The stories of Irish deportees from the US in 1800s
Atlantic seaboard states, especially Massachusetts, systematically deported indigent Irish immigrants back to Ireland and Britain.
Some deportees experienced "double deportation." In 1855, Massachusetts officials deported to Liverpool eight female Irish paupers with mental illness. Liverpool authorities put them on board a ship to Dublin

The Time Machine is a science fiction novella by H. G. Wells, published in 1895. The work is generally credited with the popularization of the concept of time travel by using a vehicle or device to travel purposely and selectively forward or backward through time. The term "time machine", coined by Wells, is now almost universally used to refer to such a vehicle or device.

WHO'S ABSENT?
JOHN BULL
John Bull is a national personification of the United Kingdom in general and England in particular, especially in political cartoons and similar graphic works. He is usually depicted as a stout, middle-aged, country-dwelling, jolly and matter-of-fact man.
John Bull originated as a satirical character created by Dr John Arbuthnot, a friend of Jonathan Swift and Alexander Pope. Bull first appeared in 1712 in Arbuthnot's pamphlet Law is a Bottomless Pit.[2] The same year Arbuthnot published a four-part political narrative The History of John Bull. Starting in the 1760s, Bull was portrayed as an Anglo-Saxon country dweller. Bull is usually depicted as a stout man in a tailcoat with light-coloured breeches and a top hat.
